Tourism Economic Impact Report

With the assistance of the Governor's Office of Appalachia, who have partnered with the Ohio Tourism Division, we have once again entered into an agreement with Tourism Economics, an Oxford Economics Company based near Philadelphia, to produce an Appalachian Region Tourism Economic Impact Report. This study combines quantitative methods with industry knowledge, designs custom market strategies, project feasibility analysis, tourism forecasting models, tourism policy analysis, and economic impact studies. This study is extremely useful to your region and/or county when seeking additional funds to expand tourism-related businesses and other economic development projects. If contracted separately, this report would cost Ohio counties approximately \$2000. However, with a generous grant from the Governor's Office of Appalachia, the match required for each Appalachian county is **\$200**.

Participating counties will receive an individual county report along with a report for the entire Appalachian Region of Ohio. ***All 32 counties MUST participate in order to produce the regional report. The regional report will only be free if ALL 32 counties participate.*** The funding match should come from an official entity of the county – i.e. the CVB, Chamber, Economic Development Office or County government. If you are an organization or attraction, please make sure your county is signed up to participate in this important study.
